[Features]

- Does not corrode from acid, alkali, or salt; strong oil resistance.
- Lightweight and flexible - easy to install.
- Cost-effective and easy to maintain.
- Geothermal Hose: for hot-water use, greenhouse side insulation (10~50°C).
- Soft LD Pipe: LDPE/LLDPE base - punchable, usable as ground-spanning pipe.

Tube & Water Hose – Specifications & Applications

Water hose valve & fittings installation

- Tube (WY-2101): available in 3 sizes — 3×5mm, 4×7mm, 5×8mm; 200m/roll; used for dripper button & mini sprinkler assembly
- Water Hose Φ13mm (WY-2102): replacement for LD soft pipe; 50m roll
- Water Hose Φ16mm (WY-2102): standard water supply hose; 20m or 40m roll

Product	Size (Inner×Outer mm)	Roll Length	Application
WY-2101	3×5mm	200m	Dripper button assembly, mini sprinkler (3×5 tube)
WY-2101	4×7mm	200m	Mini sprinkler assembly, Aqua-jet (4×7 tube)
WY-2101	5×8mm	200m	Larger dripper & cool-fog tube applications
WY-2102	Φ13mm × 50m	50m	LD soft pipe replacement; water supply connection
WY-2102	Φ16mm × 20m	20m	Standard water supply hose (short roll)
WY-2102	Φ16mm × 40m	40m	Standard water supply hose (long roll)

Filter

WY-3101

**ARISU(Screen type)
Filter 20mm**

Mesh 100 Mesh · 2,000~2,500 L/h
Pack 50/box

WY-3102

ARISU Filter 40mm

Mesh 120 Mesh · 9,000~12,000 L/h
Pack 10/box

WY-3103

ARISU Filter 50mm (Normal)

Mesh 120/100 Mesh · 12,000~25,000 L/h
Pack 1/box · 60/pallet

WY-3104

ARISU Filter 50mm (Helix)

Mesh 120 Mesh · 12,000~25,000 L/h
Pack 1/box · 60/pallet

WY-3105

Cyclone Filter (Iron)

Size Φ50mm inlet

WY-3201

Filter Disc (Normal)

Mesh 120 Mesh · Φ40/50mm

WY-3202

Filter Disc (Helix)

Mesh 120 Mesh · Φ50mm

WY-3203

Filter Screen (Mesh)

Mesh 100 Mesh · Φ20/50mm

3

Filter – Structure & Maintenance

Component Overview (Normal Type)

Helix Vortex Action

■ Key Features

- Helix model creates a vortex that pushes debris away from discs, drastically reducing clogging
- Disc-rotation locking system prevents disc set from separating during operation
- Filter cap rotates smoothly by hand — no tools required for assembly / disassembly

■ Installation Steps

1. Loosen the filter cap by hand
2. Separate the upper and lower filter body
3. Rotate the disc set to loosen and remove for cleaning

! Caution

- Installation direction differs depending on disc / screen type — always check the arrow on the filter top before installing

3

Filter – Components & Specifications

(Helix)

(Normal Type) (Helix Type)

(Filter Cap)

Product Information	
WOOYEONG Tech (ARISU FILTER)	
2" Disk & Screen Filter	
Technical Data	
Max. working pressure	8 bar
Max. working temperature	60°C
pH Range	3 ~ 12
Housing and Lid	Polypropylene
Housing seal	EPDM
Filter Screen	Polypropylene

ARISU Filter – All Components (Normal & Helix)

■ Key Features

- Handle Key — used to open/close the filter cap without slipping
- End Cap + End Cap Packing — seals the disc stack at the bottom
- Filter Upper / Lower — main filter body housing
- Disc Guide + Helix — guides water flow into vortex; Helix color: Red=100M, Green=80M, Blue=120M
- Drain Valve + Packing — back-flush drain outlet at filter base

Specification	ARISU 50mm (WY-3103/3104)
Inlet / Outlet Diameter	2" (50mm)
Max. Flow Rate	25,000 L/h (25 m³/h)
Max. Pressure	8 bar
Disc Mesh Options	80 / 100 / 120 Mesh
Product Weight	3.3 kg (Helix) · 3.0 kg (Normal)
Material	Engineering Plastic + Flawless disc

Valves

WY-4101

Queen Union Valve

Size D16mm~D50mm
Pack 25~120/box

WY-4102

Queen Female Single Valve

Size D16mm~D50mm
Pack 30~170/box

WY-4103

Queen Male Single Valve

Size D16mm~D50mm
Pack 30~170/box

WY-4104

Queen Female Thread Ball Valve

Size D16mm~D50mm
Pack 40~150/box

WY-4105

Queen Male/Female Valve

Size D16mm~D50mm
Pack 40~150/box

WY-4106

Queen Tee Valve

Size D16mm~D50mm

WY-4107

Queen Lay Flat Female Valve

Size Φ 25mm
Pack 80/box

WY-4108

Queen Lay Flat Male Valve

Size Φ 25mm
Pack 80/box

WY-4109

Queen Positive Male Screw Valve

Size Φ 25mm
Pack 100/box

4

Valves – Assembly Diagrams & Specifications

WY-4202

Angle Electromagnetic Valve (Bermad)

Voltage

24VAC · Φ20~50mm

Pack

10/box

WY-4201

Electromagnetic Valve (Bermad)

Voltage

24VAC · Φ20~50mm

Pack

12~50/box

WY-4203

Electromagnetic Valve Coil (Bermad)

Voltage

24VAC 2-way

Queen T-Valve Body Assembly

Electromagnetic Valve Installation

Valve & Fittings Connection Assembly

■ Key Features

- Queen valves (WY-4101~4109): Φ20~50mm; for Φ40/50mm sizes, combine with T-Valve Body (WY-7113)
- WY-4104 Queen Female Thread Ball Valve: female-threaded ball valve for quick on/off flow control; Φ20~50mm
- WY-4106 Queen Tee Valve: T-shaped valve for branching irrigation lines; integrates valve + tee function
- Bermad EM Valve (WY-4201): 24VAC, 2-way automatic control; coil (WY-4203) sold separately

Code	Product Name	Size (mm)	Notes
WY-4101	Queen Union Valve	D16mm~D50mm	Standard thread connection
WY-4102	Queen Female Single Valve	D16mm~D50mm	40/50mm via WY-7113
WY-4103	Queen Male Single Valve	D16mm~D50mm	
WY-4104	Queen Female Thread Ball Valve	D16mm~D50mm	Female thread, ball-type on/off
WY-4105	Queen Male/Female Valve	D16mm~D50mm	Both side connection
WY-4106	Queen Tee Valve	D16mm~D50mm	T-shape branch valve
WY-4107	Queen Lay Flat Female Valve	D25mm	For flat-lay water hose
WY-4108	Queen Lay Flat Male Valve	D25mm	For flat-lay water hose
WY-4109	Queen Double Male Valve	D25mm	Male both ends
WY-4201	Electromagnetic Valve (Bermad)	D20mm~D50mm	Auto irrigation control
WY-4202	Angle EM Valve (Bermad)	D40mm,D50mm	Angle type installation
WY-4203	EM Valve Coil (Bermad)	24VAC	Replacement coil, sold separately

5 Drip Valves & Fittings – Installation Examples

Saddle + Two Line Valve + Drip Tape : installations

Saddle + Spray Line Valve + Spray Hose (3-4cm)

Water Hose + Cap Line Valve + Spray Hose(3-4cm)

Water Hose + Female Tee + Spray Hose(3-4cm)

■ Key Features

- Saddle + Two Line Valve + Drip Tape: install at 20~30mm spacing for uniform drip delivery
- Saddle + Spray Line Valve + Spray Hose (3~4cm): ideal for medium-density planting
- Water Hose + Cap Spray Line Valve + Spray Hose: convenient cap-type connection

7

Wrench Fittings – Assembly Guide

KP Fitting Assembly Steps

LD Socket and LD Valve Socket Installation Method

PE Compression Fitting Installation Method

■ Installation Steps

1. Position body, O-ring, coupling, and holder as shown in diagram
2. Push gently and tighten the cap to secure

! Caution

- When inserting O-ring, place it at the pipe END (not middle) to prevent leakage
- LD Socket is designed for soft LD pipe only — no O-ring or fittings needed; prevents summer heat pull-out

8

Threaded Fittings

	WY-8101 Bushing Size $\Phi 20 \times 16 \sim 50 \times 40 \text{mm}$ Pack 300~1,000/box		WY-8102 Female Screw Socket Size $\Phi 16 \sim 50 \text{mm}$ Pack 150~1,500/box
	WY-8103 Female Reducing Screw Socket Size $\Phi 20 \times 16 \sim 50 \times 40 \text{mm}$ Pack 150~800/box		WY-8104 Short Nipple Size $\Phi 16 \sim 50 \text{mm}$ Pack 150~1,500/box
	WY-8105 Reducing Nipple Size $\Phi 20 \times 16 \sim 50 \times 40 \text{mm}$ Pack 200~1,000/box		WY-8106 Female Screw Elbow Size $\Phi 16 \sim 50 \text{mm}$ Pack 70~500/box
	WY-8107 Female Screw Tee Size $\Phi 16 \sim 50 \text{mm}$ Pack 60~300/box		WY-8108 Male Screw Elbow Size $\Phi 20 \sim 25 \text{mm}$ Pack 800/box
	WY-8109 Male Screw Tee Size $\Phi 20 \sim 25 \text{mm}$		WY-8110 Long Nipple Size $\Phi 16 \sim 50 \text{mm}$ Pack 100~700/box

9

Fittings – Specifications & Features

WY-8111

Fitting (Nipple Type)

Size Φ 16–50mm

Pack 10~40/bdl · 80~400/box

WY-8112

Fitting (Normal Type)

Size Φ 16–50mm

Pack 10~40/bdl · 80~400/box

WY-8113

Drain Fitting (Nutriculture)

Size Φ 25/32mm

Pack 20/bdl · 160~200/box

Normal Type vs Nipple Type

■ Key Features

- Plastic material provides superior chemical resistance — ideal for fertiliser and chemical irrigation
- Lower cost than copper fittings while maintaining equivalent performance
- O-rings are distinguished for irrigation vs. oil use — confirm type before ordering (default: irrigation O-ring)

Size (mm)	Hole Cutter (mm)	Type
16	29	Normal / Nipple
20	35	Normal / Nipple
25	41	Normal / Nipple
30	50	Normal / Nipple
40	57	Normal / Nipple
50	67	Normal / Nipple

Lay Flat Connector (Socket)

Size $\Phi 50 / 65 / 75\text{mm}$
Pack 100~150/box

WY-9105

Spray Hose Connector (Male/Big)

Size $\Phi 25\text{mm}$
Pack 300/box

WY-9106

Spray Hose Connector (Ring/Small)

Size 3~4cm / 6~7cm
Pack 300/box

WY-9107

Spray Hose End

Pack 300/box

12

Cap Saddle – Installation Method & Features

Cap Saddle Assembly (4 Steps)

■ Key Features

- Significantly easier to install than conventional bolt-tightening saddles
- Drastically reduces labor and installation time on large-scale irrigation projects

■ Installation Steps

1. Attach the O-ring to the saddle body
2. Position the saddle at the desired location on the pipe
3. Tighten the cap to secure the saddle firmly onto the pipe
4. Use a hole cutter to punch a hole through the pipe at the saddle port

WY-10101

Start Saddle

Size 20/25/30/40/50×13mm
Pack 150~500/box

WY-10102

20 Cool-Fog & Fittings – System Overview & Applications

● Cool-Fog

Cool-Fog is a cooling system that blows air into water to atomize it into fine water particles, spraying them so they evaporate in the air, using the heat of vaporization.

● Applications

Facility greenhouses, seedling nurseries, mushroom farms, etc.

- Temperature/humidity control

Livestock barns (pig farms, cattle farms, poultry farms, etc.)

- Prevention of heat stress damage to livestock caused by heat waves
- Reduction of manure storage odor (odor neutralization)
- Creating a comfortable environment through temperature/humidity control

Preemptive pest control and labor-saving effect through unmanned pesticide spraying

Other general industrial fields (textile factories, distribution centers, factories, etc.)

- Dust reduction effect
